

How to ice our tea...

[NEOAUSTRALIA.COM.AU](http://NEOAUSTRALIA.COM.AU)

AUSTRALIAN MADE & OWNED

**There are a few ways you can ice the perfect tea:**

1. Brew your favourite Neo tea at double strength,
2. Add 2 teaspoons per cup and infuse with one third hot water or boiling as per instructions for 5-7 min's,
3. Let cool and top up your teapot with ice cubes.

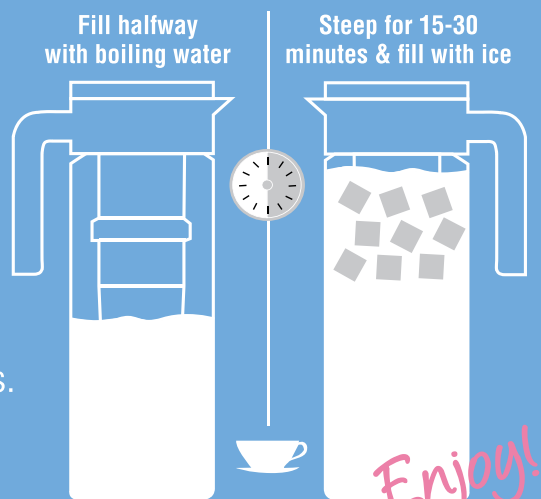

**Another way of icing your tea:**

1. Follow Step 1 above,
2. Add 2 teaspoons per cup and infuse with hot water or boiling water as per instructions for 15-30 min's,
3. Remove tea leaves, pop in the fridge for another 30 min's. When ready, add ice. Garnish with fruit.

If you'd like to take it to the next level, try cold brewing your tea with cold water and leave in the fridge overnight.

*You can also cold brew with soda water, lemonade or even champagne - throw in your favourite fruit and you'll have some delicious concoctions in no time!*

**1 Iced Tea Pitcher Pack Makes 1.5-2L**
