

Marco Series Easy Assembly

STEP 1 – FOUNDATION

Assemble our optional pre-cut floor kit or prepare your own wood or concrete foundation.

STEP 2 – ASSEMBLE WALL SECTIONS

Pre-cut studs, plates and wall panels allow quick assembly of wall sections.

STEP 3 – STAND WALLS

Stand assembled walls and attach to foundation.

STEP 4 – ROOF TRUSSES

Roof truss halves assemble quickly with strong wood gussets and attach to wall top plates. EZ Frame™ construction reduces number of trusses needed to assemble and install.

STEP 5 – ROOF

Attach roof and gable panels to trusses.

STEP 6 – INSTALL DOORS

Pre-assembled, pre-hung doors simplify installation.

STEP 7 – TRIM

Attach pre-cut trim.

STEP 8 – HARDWARE

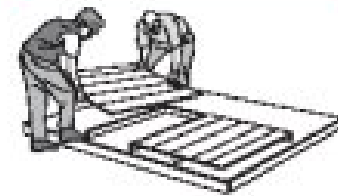

Complete by installing door hardware and weatherstrip.

Your building is now ready to paint and shingle.
