RONDO Pavilion – Overview, uses, possibilities (RONDO Solar)

Subject to errors and alterations.

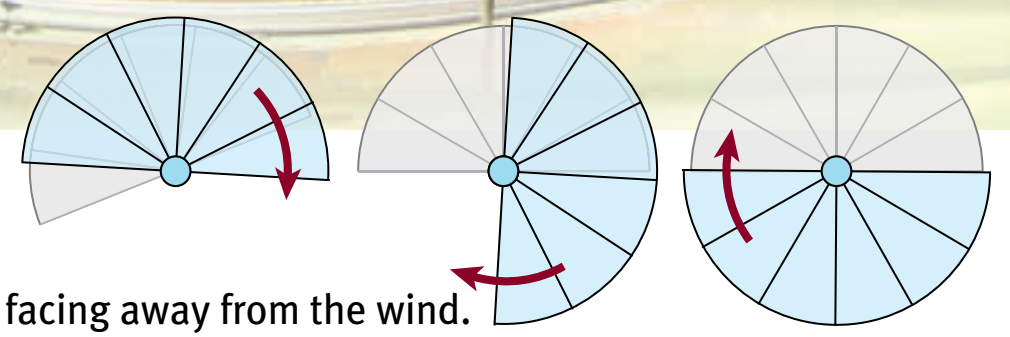

Simply ingenious – Fully revolvable!

Our partners near you:

Your partner for exceptional constructions.

The sensationally innovative twist: RONDO Pavilion As open as you like

The RONDO Pavilion. Always on the sunny side, facing away from the wind.

The sensationally innovative twist from RONDO offers a 360° panoramic view. Open or closed.

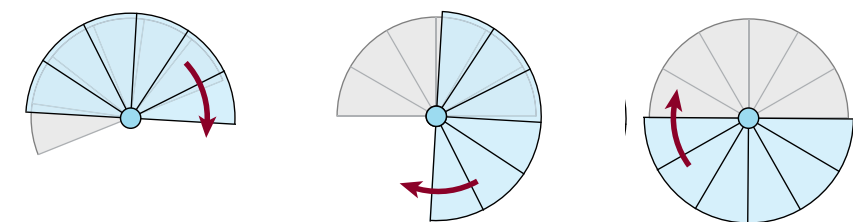

Our RONDO Pavilion offers you a living space with a “panoramic view”. The side pieces, which can be steplessly adjusted with or against each other, and provide protection against wind and weather — exactly where you need it.

The exceptional variety of the RONDO Pavilion:

- An al fresco sitting area
- An all-year meeting spot for the whole family
- Swimming pool or whirlpool covering
- A bandstand in the spa/resort garden
- As a smokers’ pavilion (in gastronomic settings, for instance)
- An artist’s workshop
- Customizable appearance through the use of a pagoda or domed roof, or with straight roof beams
- Complemented by ceiling or side shades
- Alternatively, coloured ceiling panes and side panels and/or opaque inserts are possible

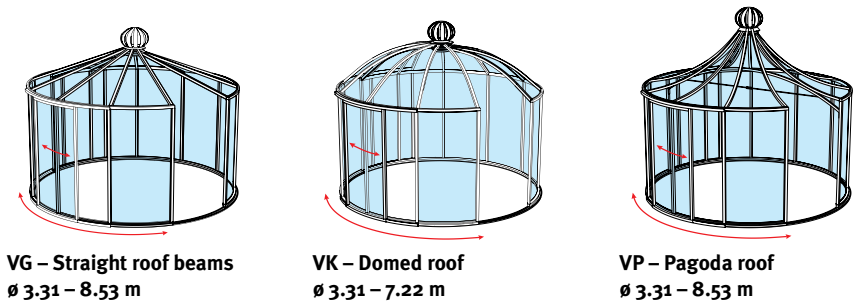

Matching accessories available upon request.

Extremely easy to use

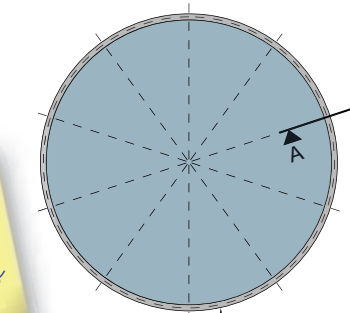

Stepless opening, up to 180°
Completely revolving, in every direction
With the sun — against the wind

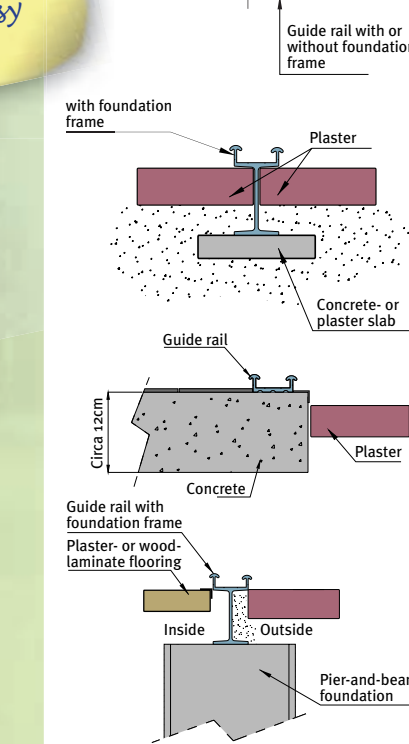

Roof forms

Your RONDO can be constructed in a single day

Laying foundations is easy

Model Description

The standard models have two parts, can be revolved with- or against each other, and include a lockable sliding door in the outer segment. The side- and roof heights are dependent upon the roof form.

The aluminium construction is available in the following standard RAL colours:

- Pine green 6009,
- White aluminium 9006,
- Anthracite grey DB703, but also in all RAL special colours, upon request.

Glazing:

- Single-pane safety glass (ESG)
- Pane grid: Circa 1.0 m
- Glazing in the roof is made of highly impact-resistant Plexiglass®
- Transparent, or white
- UV-resistant.

The linchpin is the thermodynamic wind-driven fan (inc. sealing washer) in silver, also available in RAL colours upon request.

The ideal solution for your whirlpool

RONDO Solar is the eye-catcher in your garden

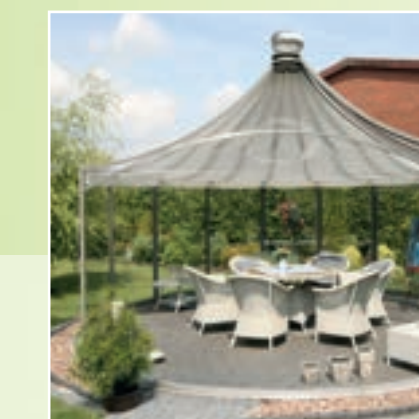

Perfectly chosen furniture creates an atmosphere of wellbeing and relaxation

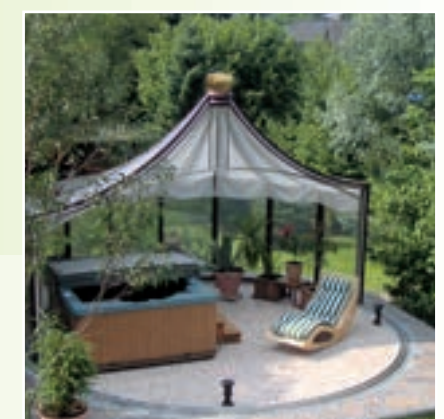

...directly next to your house

...as an al fresco sitting area

...for pleasant get-togethers

...or to simply lay back and relax
