#### **COMIC DECODERS**

The beautiful comic format was chosen to provide an appealing and familiar format to beginning readers. The story unfolds and provides oral language opportunities with the graphics.

The text is structured for decoding so it is very limited in word range. The children will be able to decode or be presented with prior familiarisation with sight words. Children will immediately find these attractive and fun readers a great way to practise their decoding.

Phonics skills are built sequentially with full teacher directions given with each reader. Each reader is unique in layout and character presentation to provide an engaging and rich reading experience. The more children practise their reading skills the faster they will achieve fluency and independent reading. It is strongly advised to provide daily opportunities for children to read.

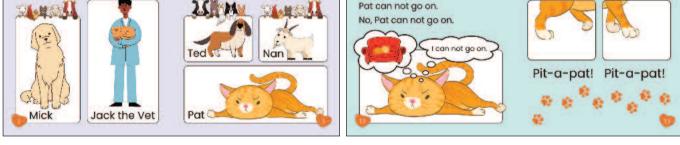

The series covers a sequential plan of work and can be an additional support to other classroom activities. The set covers the initial consonants and then blends. There are teacher guidance notes for each of these readers with listed sight words to review before starting on the series.

#### SOUNDS AND LETTERS

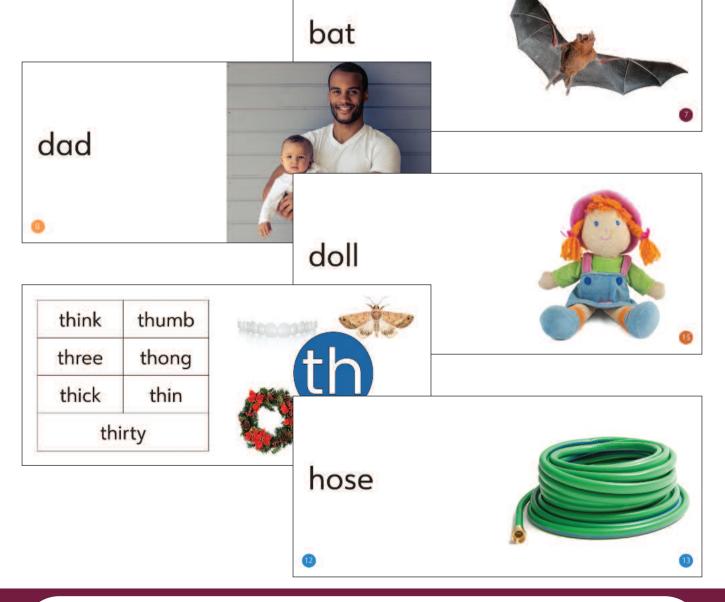

This is a set of 22 readers to support the teaching of phonics in classrooms. The foundations of reading must come from the sounds of the syllables and letters. This is a step which is essential for this reading process to be effective and quick. The first step in learning to read is to recognise the letters and associated sounds. Children are introduced to all the letters and sounds for decoding practice in this set of 22 readers.

These are readers which use repetition and engaging visuals to introduce specific short vowels, long vowels, consonants and blends. Children will enjoy the engaging graphics as well as learning their initial foundation sounds. The phonemic awareness stage is essential before children can progress to decoding and reading. If this foundational stage is not mastered, children may have trouble with decoding and reading. An important stage and classroom work is reinforced with these simple readers.

#### TAS AND FRIENDS

**Tas and Friends** is a series of 100 readers for developing skills in decoding. When children are learning the basic foundations of phonics they need continual practise of these foundation elements. Readers provide a perfect opportunity to introduce the vowel, consonant, syllable or blend to use and then practice.

Children build confidence and fluency and are ready to decode unknown words. Readers speed up the literacy program in schools.

A general outline of what is covered in the series is as follows;

Consonants – all consonants, plus consonant blends ck, th, etc.

Vowels - all vowels: a, e, i, o, u.

**Sight words** – words that the children have to memorise. Sight words used in these readers cover the first 80 words of the Dolch list of commonly used words. Words such as the, and, see, come, what, are, make, down, help, etc.

Set 1 covers CSVC - consonant, short vowel, consonant combinations, e.g. Tas, cat, mat, rat etc.

Set 2 covers CCSVC - consonant, consonant, short vowel, consonant combinations, e.g. trip, bird, long.

**Set 3** covers CLVC – consonant, long vowel, consonant combinations, e.g. gate, and sight words – by, does.

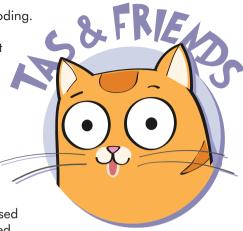

**Set 4** covers CVVC – consonant, vowel, vowel, consonant combinations, e.g. long vowel digraph – 'ai' such as main, grain, and sight words – could, food.

**Set 5** covers Sets 1-4 skills – revision and mastery set of 20 readers. The main difference is the amount of words is doubled per page as the children should be a lot more fluent after reading Sets 1–4.

#### **ERA PHONICS DECODABLES**

#### **Short-vowel Decodables 1.0**

Start with decodable consonants and the most common short-vowel sounds.

#### **Short-vowel Decodables 1.1**

These additional texts extend the skills promoted in the previous set with higher word counts and more nondecodable high-frequency words.

#### **Consonant-digraph Decodables 2.0**

Introduce the first digraph consonants.

Extend with higher word counts and more non-decodable high-frequency words.

#### Long-vowel Decodables 3.0

Continue with long-vowel diphthongs and r-controlled letters and sounds.

#### Long-vowel Decodables 4.0

Finish with r-controlled & silent e, long vowels and soft sounds.
