

Thank you so much for purchasing my 20 To Make Crochet Purses book. Hope you enjoy crocheting every purse as much as I have enjoyed designing them.

There are 8 purses that require clasp. As stated in the book the clasps are all made by Prym. I got the ones to use in the book from The Creative Sanctuary and John Lewis. Unfortunately, some of them have now been discontinued, but I have found substitutes and some of the original ones are still available to purchase from other retailers.

Please find below the list of the actual clasps used in the book, you will also find links to where to purchase them, just click on the relevant link and it will take you to the purse page.
