Porcelains Unlimited & Monument Build Support MBNA Annual Conference as Platinum Sponsors

*Memorial Industry Prepares for First Virtual MBNA Conference to
be Held in February 2021*

Sarasota, Fla., January 26, 2021 - Porcelains Unlimited and Monument Build today announced their support of the 2021 Annual Conference of the Monument Builders of North America (MBNA) as Platinum Sponsors. This year, the MBNA Conference will be hosted virtually February 23 to 26.

The two companies are active in the robust North America memorial industry. Porcelains Unlimited provides [fine quality porcelains](#) that feature detail-rich photos and vibrant color graphics for memorials, urns, and in-home memorial displays. The company is responsible for a number of innovations, from sophisticated custom shapes and elegantly detailed mosaics to the largest porcelain panels available.

Monument Build is a new [online marketplace](#) enabling wholesalers and retailers to offer their goods and services from a convenient central source. Buyers can browse, research, and order a variety of memorial products and services including urns, keepsakes, porcelain portraits, cremation jewelry, digital memorial programs, and more. Monument Build provides cart and fulfillment services as well as web design and marketing services that help sellers engage more effectively with prospective buyers.

“We’re pleased to be able to help support the [MBNA’s first virtual conference](#),” said Tanner Lewis, founder and CEO of the two companies. “The MBNA has a vision to transform how our industry conducts business and connects with our constituents. It’s an exciting time to be actively engaged in the organization and in this very special event.”

About the Companies

Combining old-world handcrafted tradition with the latest technology, Porcelains Unlimited delivers fine quality Italian porcelain memorials guaranteed for 200 years. Monument Build is an innovative online resource offering a central marketplace, cart and fulfillment services, web design, and marketing services that enable suppliers and sellers to effectively connect with buyers. An active inventor and entrepreneur, Mr. Lewis was featured in the [Sarasota Herald-Tribune in August 2019](#). He also founded technology company Knecto, an award-winning software firm offering multi-purpose electronic scanning and sensor technology and a patented data capture and analytics system. Mr. Lewis is a member of the MBNA organization and Board of Directors.
