

*TRAVELCARD PLUS*<sup>™</sup>

## Instructions

Thank you for your purchase of the TravelCard Plus, the ultra-slim phone charger that fits in a wallet!

Before using the TravelCard Plus, connect the built-in USB-C charging cable to a USB-C computer port or plug into a wall outlet with a USB-C adaptor.

The TravelCard Plus takes two hours to fully charge. When 100% charged all four indicator lights will be on. When the capacity drops below 20%, one indicator light will be on and the TravelCard Plus should be recharged.

To charge your phone, just plug the correct built-in cord into your phone and press the power button.

We hope you enjoy using the TravelCard Plus as much as we enjoyed developing it.
