

BöttcherPro Cleanfix

Cleaning Paste

For intensive cleaning of ink rollers at quick colour changes.

Application

- deep-down cleaning of roller surfaces
- reduces glazing and polishing of the roller surfaces, if used regularly
- can be applied from the tube without the need of a spatula
- economic use

Features

After a short prewash with a Böttcher roller wash, apply BöttcherPro Cleanfix from the tube to the roller and leave to take effect for several minutes, with the printing machine running at idle speed. Rinse with the same Böttcher roller wash used for pre-washing. In stubborn cases, leave BöttcherPro Cleanfix to take effect for a longer time. It is recommended for roller care to repeat the procedure once a week (combined with BöttcherPro Calciumfix).

Note

 0.5 kg tube

Package

BöttcherPro Cleanfix is classified according to EC-Directive 1999/45/EC - in its latest version and does not need to be marked. BöttcherPro Cleanfix is not a dangerous good in the sense of national and international transport regulations.
