- Immediate post-print processing
- Reduced ink consumption
- All PANTONE® Basic Colours available
- SonaDry DI for Direct Image presses such as Presstek, Heidelberg, Ryobi and KBA

SETTING THE HIGHEST STANDARDS FOR TODAY'S WATERLESS PRINTING

If you want to experience more tonal contrast, beautiful shades of colour and incredible saturation when printing waterless, you'll want to experience SonaDry from Van Son. Today, waterless ink is as much of an art as it is a science. When it comes to choosing a waterless ink, nothing compares to Van Son's SonaDry. Compatible with all waterless plates and presses, it dries hard and fast to a high gloss surface, offering your print application a high density and a dot pattern that is virtually invisible.

Known to have the industry's widest Critical Tone Temperature, SonaDry will resist toning and mottle in a broad range from 20°C to 35°C. Developed to deliver excellent press stability, quicker drying times and lower heat buildup, SonaDry also delivers less downtime and higher productivity. Enjoy brighter, more balanced print jobs that include colour detail sure to please your most demanding customer. SonaDry from Van Son - Reliability that keeps you printing.
