

T&K TOKA®

BEST CURE  
UV TIO

# BEST CURE UV TIO

## UV TIO user-friendly UV ink

- Excellent curing property. Applicable for ozoneless UV, LED-UV and UV devices with reduced number of lamps.
- Excellent rub-resistance. Applicable for various types of paper.
- Helps to reduce the volume of dampening water, which leads to less troubles related to overemulsification.
- Excellent ink flow makes density-matching adjustment at the start of jobs easier.
- Good deinkability enables recycling of printed matter. Deinkability test certificate has been obtained. (Test Number: PMV-19-085)
- In compliance with EuPIA Exclusion Policy for Printing Inks and Related Products.
- This ink is free of “health hazard” mark.
- Excellent gloss, dot gain, trapping and gray balance. In accordance with hue of ISO12647/2846-1.

T&K TOKA®

# BEST CURE UV TIO

Leading company of UV inks in Japan, T&K TOKA has developed European-grade ink “UV TIO” by utilizing years of experience and technology cultivated.

T&K TOKA has designed “UV TIO” as a user-friendly UV ink that can be used with any UV irradiation device regardless of the printing press. Even if you have multiple numbers and types of UV irradiation devices, “UV TIO” will work on any of those. You will be released from troublesomeness of selecting different types of inks for power-saving UV, H-UV, LED, etc., and controlling inventory of different types of inks.

In addition, “UV TIO” is an ink that further improves the printability, quality, performance, measures against harmful components, deinkability, etc. of the UV inks that are previously available. You will be satisfied with the finish of printed matter in many ways.

UV TIO makes printing more convenient and easier, reduces burden on people and environment, and contributes to recycling of resources.

T&K TOKA will further promote development of UV inks.
