## POLY-CLEAN

### Cleaning Paste for Metal Cylinders in Offset Machines

#### Characteristics:

- Cleans the cylinder surface from oxide, mud and ink residues
- Protects and preserves the cylinder surface
- Prevents the sticking of inks on the back pressure cylinder

#### Application:

Apply and distribute **POLY-CLEAN** with a cloth on the cylinder surface. Polish the surface for a short time and it will become clean and bright.

#### Safety measures:

To prevent corrosion effects on cylinders of printing machines we recommend to use additionally **VEGRA Cylinder Preservation Concentrate VP 130** which contains a corrosion inhibitor.

#### Packing:

Carton with 12 tubes of 200 g

The specifications given in this brochure are based on laboratory tests and practical experience. All specifications are to the best of our knowledge and reflect the latest state of the art, however, this does not imply any liability.
