The italian way of sustainability

RIPPOTAI

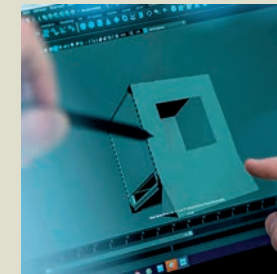

An eco-design choice.

We create, design and produce home and office decor items and gift ideas in recyclable, eco-friendly or renewable materials. Our products are eco-friendly, reusable, recyclable and designed in our Italian workshop following the eco-design philosophy with sustainable and certified materials such as FSC cardboard and GreenGuard inks, with an innovative glueless stacking system.

We are a Benefit Company trying to achieve fundamental goals in terms of inclusiveness, equity and sustainability and we do so by giving lots of importance to individuals, not just profit.

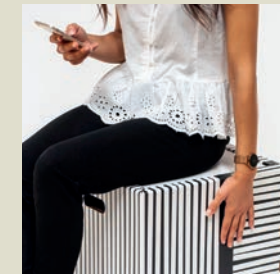

Let's make the change. **Together.**

Our core values

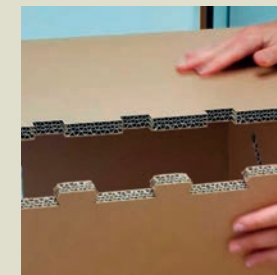

Re-use

We design furnishing accessories designed to be used several times and to have a long life. The products are designed to be disassembled and reused

Inclusivity

We believe that there are no differences but only excellences to always give the right voice.

Innovation

Our products are assembled with an ingenious system interlocking without the use of glues. Their disposal must respect the principles of the circular economy.

Made in Italy Design

Design and production made in Italy only with certified eco-friendly materials.
