### Product Information

### Installation Instructions

1. Fix backplate to the wall ensuring the arrow is pointing up. Run power cable through the rubber seal.
2. **Connect the mains supply to the terminal block, using the following instructions for the wiring:**  
Connect the Live wire to the corresponding terminal on the terminal block marked L.  
Connect the Neutral wire to the corresponding terminal on the terminal block marked N.
3. Choose if you want the fitting to be up or down. Fix the arm to the backplate with provided locking nuts.
4. Fit the lantern head to base through the bottom of the lantern for up installation or through the top cap if down.
5. Slide the glasses into place inside the lantern.
6. Fit the bulb as per the below instructions.
7. Fit the second part of the lantern. The cage for down and the cap up for up.
8. Fit the finial to open part. Top cap for up and the bottom of the cage for down.

### Changing the Bulb

1. Turn off the power.
2. Remove lantern head by turning and unlocking. Remove cage part if facing down. Remove cap if facing up.
3. After the bulb has cooled, turn it anti-clockwise to unscrew it from the lamp holder.
4. When installing the new bulb, turn it clockwise into the socket until it stops. Do not overtighten.
5. Refit removed part and turn to lock into place.
