Product Information

Installation Instructions

1. Before starting the installation, please ensure that the power is disconnected.
2. Remove the waterproof lamp cover and install the correct low voltage LED lamp. The lamp must not exceed the specified wattage of the light fitting. Make sure that all seals are reinstalled for waterproofing.
3. Remove the screw from the base of the ground spike and use to screw the light fitting base to the spike.
4. Connect the brown(live) wire to the corresponding terminal on the terminal block (marked L) and the blue (neutral) wire to the corresponding terminal on the terminal block (marked N). Make sure this connection is enclosed in an appropriate IP54 enclosure or similar.
5. Position light in the ground and reconnect the power source.
6. Please do not look directly at the LED lamp once on.

Safety Instructions
