SLIMBATTEN50W6K			6500K	6000lm		

Product Information

Installation Instructions

1. Pre-drill two 6mm diameter holes on the intended mounting surface, ensuring a depth of 30mm or more for each hole and a distance of no more than 1.1 metres apart. Gently knock the provided plastic expansion tubes provided into the pre-drilled holes, ensuring the plastic tubes are flush with the mounting surface.
2. Take the flush mounting clips and line up the fixing holes to the pre-drilled location holes on your mounting surface. Fix both flush mounting clips using the screws provided.
3. Open the back terminal cover plate of the termination box to find the connection terminal and interconnect mains power supply cables with the connection terminal. Make sure that all connections are secure and properly tightened.
4. Clip the slim LED batten onto the flush mounted clips.
Ensure installation is correct before switching on the fitting to test.

Please refer to the "switching capacity specifications" of this fitting when application is alongside technology such as sensors and dimmers.
