

# Component CONVERSION MODULE – SMALL

Product Codes: LEDMODULE-S3K & LEDMODULE-S4K

## Product Features

- Convert 230V Halogen, Fluorescent & Incandescent light fittings to LED with a Conversion Module
- Sold as complete modules
- Use as a complete module or clip-out sections for desired light output
- Multiple fixing points for ease of installation
- Complete with cable accessories
- No driver required when converting from older technologies

## Materials & Finish

- **Material**
  - SMD LED Chips

## Specifications

### • Power

- Voltage - 230V
- Driver - not required
- Wattage -Ring 1: 12W  
Ring 2: 12W  
Total: 24W

### • Light Output

- Lumens per watt - 80lm(3000K)  
- 90lm(4000K)
- Colour Temperature - 3000K or 4000K
- CRI - >80

### • Lumens

Lumens (3000K)	
Ring 1	960lm
Ring 2	960lm
Total	1920lm

Lumens (4000K)	
Ring 1	1080lm
Ring 2	1080lm
Total	2160lm
