

HIGHBAY
PLUTO SENSOR
Product Code: PLUTOSENSOR

*Height of sensor may differ when used with the PLUTODIFFUSER on the PLUTOHB

Product Features

- Motion sensor that dims lighting from high to low based off movement.
- Designed for installation in the bottom of light fixture.

Materials & Finish

- **Material**
 - PC lens
- **Colour**
 - White

Specifications

- **Dim Control Output** - 0-10V Max, 25mA sinking current
- **HF System** - 5.8GHz + 75MHz
- **Power Supply** - Voltage - 12V-24V
- **Transmission Power** - <0.2mW
- **Detection Radius** - 20%, 50%, 75%, 100% (1-8m)
- **Mounting Height** - 20%, 50%, 75%, 100% (1-8m)
- **Time Setting**
 - 10s | 1min | 5min | 10min | 15min | 20min | 30min | 60min
- **Light Control** - 24H / 10LUX | 30LUX | 50LUX
- **Temperatures** - -40°C - 70°C
- **IP Rating** - IP65

Installation

- **Mounting**
 - Mounting Height - Max 40ft. (12 Meters)
