

It all began in 2016 with two friends whose love for coastal culture and cake transcended into a fully fledged business after being inspired by a profitjerre house whilst on a trip to Holland. Just like the Dutch, The Welsh celebrate their patriotism with a burst of modern vibrancy and the two friends wondered how they could transform this passion into a welsh cake...

So, 700 + welsh cakes later the duo cracked it! The perfect welsh cake recipe was discovered and the introduction of alternative flavours began.

From their first ever Christmas market armed with just a gazebo and one small griddle, to now opening what has become a much loved cafe in Britains smalles city. St Davids, another on the Harbour wall in Saundersfoot and finally a bakery also in St Davids, it's safe to say that MamGu Welshcakes have gone from strength to strength!

Sustainability is at the heart of MamGu's. For us it's not just about cake, it's about local people and their environment. We are proud to be employing over fifteen full time bakers and coffee makers who live locally to our welsh-cakeries.

When you buy from MamGu Welshcakes you are not just supporting us, you are supporting our community.
