1. Dash from Nemo Tile+Stone

Dash is a new modern porcelain floor and wall tile collection from Nemo Tile + Stone. Rooted in eight muted earth tones, the collection features two options for its 6-by-6-inch square format, a solid-hued tile dressed in a matte finish or an enhanced variation featuring a glossy white dash across the tile's body. The collection is versatile in application and the tiles can be manipulated to create a variety of patterns for added visual interest.

2. Barcelona from Walker Zanger

To recreate the appearance of vein-cut onyx, Walker Zanger introduces Barcelona, a collection of large format porcelain tile that features striking stone-like patterns, drawing inspiration from both nature and modernist architecture. Available in four earthy colors—gray, sand, silver and ivory—the collection is offered in two sizes, polished or matte, or as four-piece bookmatched tiles, providing aesthetically pleas ing practicality to any space.

walkerzanger.com

3. The Coordinates Collection from Cambria

The Coordinates Collection was created by Cambria and Gensler and features 14 high-performing quartz designs that can work together or on their own to coordinate tone and texture. Fit for both commercial and residential applications, each design is built around the Natural Colour System (NCS) and will be available in a variety of thicknesses and jumbo slabs. The collection textures range from smooth and rugged concrete looks, to terrazzo-inspired designs, to designs with organic veining. Featured is Mammoth Cave, inspired by the dark expanses of the immense caverns in the American landmark.

3form introduces a design collection for its flagship line of resin, Varia, adding a curated palette of patterns and colors to make the challenge of material selection less time consuming for designers, but no less creative. The Varia Design Collection includes 43 total patterns and 14 colors. Whether a designer is looking for strong, saturated colors for hospitality, calming cool tones for healthcare or a span of sophisticated neutrals for a corporate setting, these new options offer plenty of choice and were designed to pair well with each other. 3-form.com

5. Engravings Collection from Móz Designs

Móz Designs is adding six new patterns to its Engravings Collection, the three-dimensional decorative metal surfacing solution that merges digital technology and artisan craftsmanship. The new patterns-Apex, Voyage, Cubella, Pearls (pictured), Nouveau and Maze-are durable, rigid and textured to add dimension to surfaces. They experiment with geometry and lines, making them distinctly different from the original collection that includes traditional patterns mimicking the look of tile. These additions round out the Engravings Collection, offering designers both modern and traditional options.

6. Durapalm Panels from Smith & Fong

The new range of Durapalm carved wall and ceiling panel systems is the first of several to be launched this year. Derived from the patterns and designs of Smith & Fong's popular Plyboo Linear bamboo panel collection, the Durapalm products take on a deeper, more exotic look, owed in part to the unique color and texture of the palm material itself. The dynamic look and feel as well as the rarity of palm interior products makes this line suited to a wide array of commercial interior applications. Eight colors are available, including Mandalay, Desert, Darieeling, Kashmir, Bitteroot, Simla, Colonial and Rangoon.

8. Dekton Avant-Garde Series from Cosentino

Dekton, the ultra-compact architectural surface with advanced technical properties for both interior and exterior applications, unveils the Avant-Garde Series, featuring three new striking colors: Helena, Khalo and Laurent. The collection draws inspiration from the most coveted natural stone materials found around the world, offering intense shine and durability. Each color in the series offers a bold, contemporary personality, meant for use in the most modern, avant-garde projects. Pictured is Laurent, which is inspired by the natural stone Port Laurent and features a dramatic, dark brown background crisscrossed with veins of gold.

7. Fluted Champagne Glass from Nathan Allan

Nathan Allan's newest introduction into the decorative world is Fluted Champagne Glass. The dynamic Champagne color option is bold and bright, and the transparent feature allows tremendous light transmission, while the Fluted texture maintains a level of privacy. Champagne is ideal on all Nathan Allan FreeForm Series glass options, including Cathedral and Channel designs. Produced in whatever thickness of glass is required and in panel sizes up to a maximum of 5-by-10 feet. nathanallan.com

9. Tekloom from Architex

Tekloom is a new high-performance product category engineered by chemically bonding together a woven and non-woven fabric. This fused, hybrid construction combines the aesthetic of a woven textile with the high-performance characteristics of a coated fabric. Patterns Affinity, Interlock, Moxie, Paramour and Triumph feature more than 1 million double rubs, surface liquid barrier, bleach cleanability and inherent Write-Off ink and stain resistance.

10. Sunbrella Assure from Sunbrella

Sunbrella Assure is a fluorine-free textile that delivers water repellency, stain resistance and enhanced durability. A proprietary bio-based formula combats the absorption of waterbased spills and messes without the use of fluorochemicals. Oil-based stains can be removed easily by following the cleaning and care guide. The material is also highly durable, with abrasion resistance up to 100,000 double rubs. The first collection, Balance featuring Sunbrella Assure, includes six different patterns in 43 colors and is available now from CF Stinson in partnership with Sunbrella Contract. >

11. Suede Plush from Unika Vaev

Suede Plush provides the luxury and softness of quality suede while performing at a higher level. This product is inherently ink- and stain-resistant and resistant to liquids, such as red wine and ketchup. Alcohol swabs or warm soap and water provide for ease of cleanability. Suede Plush is an ideal choice for heavy duty upholstery and panel applications while boasting 250,000 double rubs and 16 color offerings. unikavaev.com

12. Bantam from Morbern

Bantam is a commercial interior vinyl whose lack of additives make it an ideal material for contract and healthcare interiors. Free of antimicrobial additives, phthalates and flame retardants yet CAL TB-117 compliant, this durable fabric shows no wear after 100,000 double rubs and is cold crack resistant to -25 F. Bantam features an anti-static slip finish and urine stain-, sulfide stain- and oil-resistance. Its palette of 10 colorways comes in earthy shades of blue, red, green, orange, yellow and gray. morbern.com

13. Swatches Wall Tile Collection from Crossville

The new Swatches ceramic wall tile collection features extensive options for creating custom wall designs. Its 16 colors are presented in three groupings of foundational, neutral and vibrant hues-Necessary Objects, Neutral Territory and Brilliant Deduction-and can be mixed to create patterns or installed monochromatically for uniform looks. The line's broad color offerings are matched by the expansive selection of sizes, including five calibrated field tile options and a trim package to finish every space professionally. crossvilleinc.com

15. Cascade Collection from Island Stone

Cascade Collection glass tiles combine classic shapes with a textured finish to create subtle movement on the surface that mimics water. A dynamic alternative to matte- or gloss-finish glass tile, the custom engineered texture offers a compelling modern visual. The aesthetic is ideal for creating a retreat-like vibe on shower walls, kitchen backsplashes, interior and exterior accent walls and more. Tiles come in six natureinspired colors-Midnight, Mojave, Oceania, Pure Silk, Stratos that she wanted to make into "repeat offenders," a humorous and Tule. The hues coordinate with Island Stone's Glass Essentials line, allowing designers to easily mix and match the tiles along the wall and around the room. islandstone.com

14. Urban Foundry HDP from Florida Tile

Industrial in its feel, Urban Foundry HDP is a new generation of metallic-inspired, color body porcelain tile. It features four lustrous colors to choose from, including Alumina, Cast Nickel, Graphite and Iron Oxide. The tile's moderate degree of shade variation makes it ideal for spaces with a weathered personality. Manufactured using proprietary HDP, High Definition Porcelain printing technology, Urban Foundry HDP is appropriate for all standard applications in both residential and commercial settings.

16. REPEAT OFFENDERS from Wolf-Gordon

floridatile.com

REPEAT OFFENDERS by Ghislaine Viñas expands Wolf-Gordon's contract wallcovering collection with three bold designs-Holding Pattern, Tangled Up and Vicious Circlewhich give a cheeky nod to the cyclical nature of innovation and breaking through bad habits formed along the way. Viñas hit on the name for the collection after perusing Wolf-Gordon's extensive archives to find discontinued prints and colorways spin on their modernized reappearance. Pictured is Vicious Circle, which features concentric circles intersected by bold lines. The pattern is available in a retro-inspired green along with many tone-on-tone colorways. wolfgordon.com
