**⚠ WARNING! CAREFULLY READ AND FOLLOW ALL WARNINGS AND INSTRUCTIONS IN THIS MANUAL BEFORE USING THE PET CARRIER. FAILURE TO FOLLOW THESE WARNINGS AND INSTRUCTIONS COULD RESULT IN SERIOUS INJURY OR DEATH. THIS IS NOT AN INFANT CARRIER AND IS DESIGNED TO BE USED WITH PETS ONLY!**

1. The Pet K'tan™ Pet Carrier ("Pet K'tan™" or "Carrier") is NOT a car seat or a bicycle seat. Do not wear your pet in the Carrier while traveling in a motorized vehicle of any type or riding a bicycle, scooter, skateboard or engaging in any similar activity. In the event of an accident or fall, your pet would have no restraint and could be seriously injured or killed.

2. The Pet K'tan™ is NOT to be used for a pet weighing more than **20 pounds**.

3. Before every use, make sure that the fabric and seams of the Pet K'tan™ are in good condition.

If there are worn areas of fabric, rips, loose seams or other visible signs of damage or deterioration to the Carrier, DISCONTINUE use.

4. While wearing your pet in the Pet K'tan™, ALWAYS make sure that there is enough room around your pet's nose and mouth to provide a clear source of air. CHECK OFTEN to ensure that the fabric does not cover your pet's face and that the position of your body does not restrict your pet's airflow.

5. While wearing your pet in the Pet K'tan™, CHECK OFTEN to make sure that your pet is not too hot, the fabric fits snugly but not too tight, and that your pet is secure in the Carrier. If the Carrier does not fit snugly over you and your pet or feels too tight, DISCONTINUE use. You may need a different size.

6. The Pet K'tan™ is designed for use by adults when walking or sitting only. The Carrier is NOT to be used while participating in strenuous activity, such as sports or exercise. Do not lie down with your pet in the Carrier.

7. If you bend or stoop down while wearing your pet in the Pet K'tan™, do NOT bend at the waist; ALWAYS bend at the knees and make sure your pet stays secure in the Carrier.

8. **DO NOT** leave your pet in the Pet K'tan™ after removing the Carrier. Do NOT leave your pet in Carrier while unattended, pet could strangle or suffocate in the fabric if left unattended.

9. When wearing your pet in the Pet K'tan™, move carefully around doorways, sharp edges, hot objects and anything else that could potentially injure your pet. Do NOT drink hot beverages or cook while wearing your pet in the Carrier.

10. The Carrier should NOT be worn by persons experiencing back problems.

11. Neither **Baby K'tan, LLC**, nor its affiliates, distributors, or partners are responsible for accidents or injuries that occur from improper use of the Carrier.

12. Always wear the Carrier properly to minimize the possibility of injury to you or your pet.

**Should you have any questions or concerns as to proper use of the Pet K'tan™ Pet Carrier, contact us at 1-866-YES-KTAN or www.petktan.com before using the Carrier.**

**WASHING INSTRUCTIONS:** Machine wash cold. Only non-chlorine bleach when needed. Wash with like colors. Hang dry or tumble dry low. Wash separately before first use.

Pet K'tan™ Pet Carrier is made of 94% Polyester / 6% Spandex (exclusive of external labels)

Weight Limit: Up to 20 lbs.

## INSTRUCTIONS

Read and follow all instructions and warnings before placing your pet in the Pet K'tan™ Pet Carrier.

### 1. THE BEST FRIEND POSITION - Pet faces outward

- Place both loops over your head like a necklace (with support band at back of your neck).
- Separate the loops. Place one arm through one loop, and other arm through other loop.
- Lower the outer loop (the one farthest from your body) from your shoulder so that it hangs around your waist.

- Open & stretch the inner loop at the center of your body so that it forms a pocket or cradle.
- Place your pet in the center of this pocket with its' head toward your shoulder and facing outward, and your pet's legs toward your waist.
- Make sure that your pet is centered in the width of the fabric with an equal amount of fabric on each side of your pet's body.

- Pull the outer loop back onto your opposite shoulder.
- Spread the fabric of outer loop over your pet's lower body.
- Reach behind your back and slide the support band down so that the loops cross at the center of your back for optimal lumbar support.

### 2. THE CUDDLE POSITION - Pet faces inward

Follow all the instructions for The Best Friend Position, except when placing your pet in the Carrier. Your pet should be facing inward toward your body, not facing out. See pictures below.

### 3. THE HAMMOCK POSITION - Pet sits in a cradle

- Place both loops of the Carrier over your head like a necklace, with the support band at the back of your neck.
- Place one arm through both loops.
- Layer one loop within the other, so the fabric is now 2-ply.
- Stretch open both fabric layers of the Carrier and place pet in the center of the Carrier with an equal amount of fabric on each side.
- Adjust the fabric of the inner loop (closest to your body) so that it forms a comfortable and wide hammock - like a seat for your pet. Pull the outer loop (farthest from your body) up over your pet's back so that the Carrier hugs your pet more securely to your body.
