2 Pom-poms alternate yarn same as above using the 1/3 markings

2 Pom-poms alternate yarn same as above using the ½ markings.

Assembly:

Using one end of the 50" length of nylon cord, tie off one extra small pom-pom through its center. Thread the other end of the cord through a tapestry needle. Pass the tapestry needle and cord through the center of another extra small pom-pom. Now string an extra large pom-pom, then 2 more extra small pom-poms and continue adding extra large pom-poms alternating with 2 extra small pom-poms until all are strung. End with two extra small pom-poms. Gently push the pom-poms down the cord and tie off the last extra small pom-pom, do not cut the cord. Run the tail end of the cord through 2-3 pom-poms; then cut the cord. Let the pom-poms relax back on the cord and adjust the spacing if needed. -
