

## *Seasonal Pom-Pom Wreaths*

### **Clover Tip**

For beginners we suggest using a plain Styrofoam wreath in order to pin all your embellishments. The smooth surface will make application easier.

### **Step 1**

**Wrap your wreath in ribbon, covering the entire surface (you may pin or glue ribbon to surface).**

**\*Think out of the box for this step!**

### **Step 2**

**Construct pom-poms using Clover's Pom-Pom Makers as instructed on the following page. Amount of pom-poms depend on design and size of pom-poms used for wreath. An average of 5-10 large pom-poms are needed for a larger size wreath.**

**\*Use different sizes of pom-poms for a more organic look.**

### **Step 3**

**Layout pom-poms before gluing/pinning. Once this is done carefully glue or pin all pom-poms to wreath.**

### **Step 4**

**For beginners we suggest making a bow for wreath. This will allow you to embellish wreath without having to make too many pom-poms.**

### **Step 5**

**Get creative! Embellish with buttons, seashells and more... Mix crafts such as felted flowers or even a pom-pom owl!**

# How to make a Pom-Pom

## Step 1

Align arches and firmly wind yarn or finely shredded wool from one end to the other evenly.

## Step 2

Close arches and cut the yarn beginning in the gap between the arches.

## Step 3

Place a sewing thread or yarn to tie pom-pom in place. Tie firmly and make a double knot.

## Step 4

Separate both arches and remove pom-pom. Use scissors to cut loose ends and to shape the pom-pom.
