1

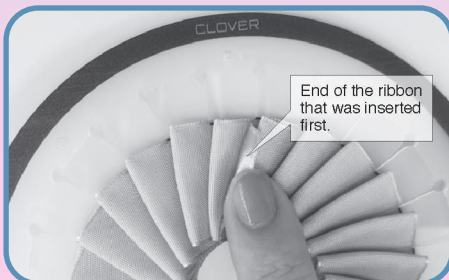

Insert the end of ribbon from beneath the plate as shown in the picture.

2

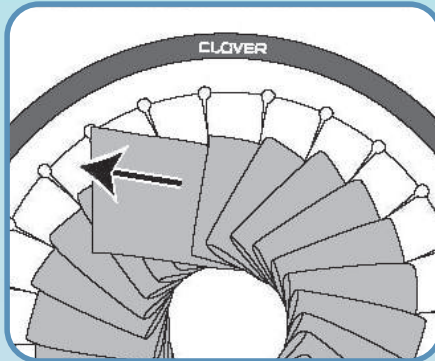

Insert the ribbon between the wings, making folds clockwise.

3

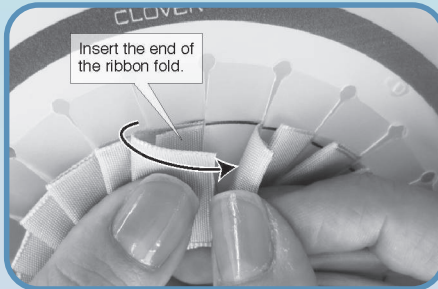

Once completed, insert the ribbon into the wing you had first placed the ribbon.

4

Cut ribbon and pull the folded part of the ribbon you inserted last and leave it outside.

5

Fold the ribbon you had left outside and insert it beneath the fold next to it on the right.

6

Attach stickers to center *front and back of rosette and remove from the plate.

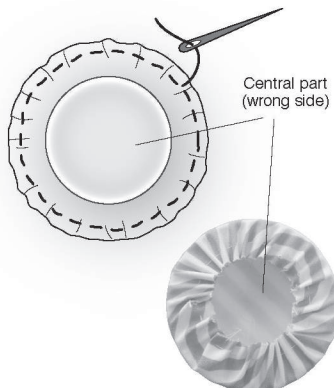

**To keep shape staple the edges of the sticker after removing the Rosette from the plate.*
