RESILIA™ FOUNDATION
COURSE & EXAM

COURSE
INFORMATION

The RESILIA™ Foundation qualification is an introductory course that takes delegates through a lifecycle approach to organisation cyber resilience, from creating a strategy aligned to business objectives through to operational cyber resilient activities.

The course is suitable for anyone who needs an awareness of how to protect an organisation's information assets, as well as how to recover from a cyber breach. Existing knowledge of cyber resilience is not required and there are no mandatory pre-requisites for the exam.

COURSE CONTENT
