

COURSE INFORMATION

The RESILIA™ Practitioner qualification builds on knowledge acquired during the RESILIA™ Foundation training. This course offers a general understanding of what effective cyber resilience looks like and the risks and issues that can easily affect cyber resilience. You will also understand how to get the best balance of risk, cost benefits and flexibility within an organisation.

Delegates for the Practitioner Course must hold the RESILIA™ Foundation Certificate. Completion of an accredited course is a mandatory pre-requisite for the RESILIA™ Practitioner Exam.
