

EN13240: 2001

Independent CE EN13240, Defra Exempt PD6434 & Ecodesign DIN+ tests undertaken in the UK by Kiwa, Cheltenham GL52 7DQ Notified Body 0558

**EN13240: 2001** Roomheater Fired by Solid Fuel (Wood)  
This appliance is capable of intermittent operation  
**IT MUST NOT BE USED IN A SHARED FLUE**

**Model** Hi-Flame Brogan WF905 / WF905-LS (Log Store)  
**Nominal Output** 5.0kW **ErP A** **Efficiency** 76.2%  
**Mean Flue Gas Temperature** 307°C

**Ecodesign: Emissions in products of combustion**

|                                                                               |      |
|-------------------------------------------------------------------------------|------|
| Mean CO Emission (at 13%)                                                     | 0.10 |
| Mean C <sub>x</sub> H <sub>y</sub> Emission (at 13%) Nmg/m <sup>3</sup> (OGC) | 76   |
| Mean NO <sub>x</sub> (at 13%) Nmg/m <sup>3</sup>                              | 82   |
| Mean Particulates (at 13%) Nmg/m <sup>3</sup> (PM)                            | 15   |

**Minimum distances to combustible materials**

**Sides** 700 mm **Rear** 900 mm

**IMPORTANT**

To minimise smoke and emissions this appliance must be used strictly in accordance with the instructions. Only burn the preferred fuel: Seasoned wood logs with moisture < 20% or approved smokeless coal.

**SERIAL NUMBER**

**WF905**

**WF905-LS**
