What's Included:

- 1 - Clean Phone Pro UV Sanitizer
- 1 - USB-A to USB Type-C charging cable
- 1 - QC 3.0 Fast Charging Power Adaptor

How To Use:

1. Plug Clean Phone PRO into power using provided power cable & adaptor.
2. Place the items in the chamber & close the lid.
3. Gently press button on the top of the lid for 1 second for 1-minute quick clean. For full 5-minute cleaning cycle, press and hold button for 5 seconds.
4. You will see the clear ring around the top of the device glow while lights are on and sanitizing is in process. When lights are off, the cycle is complete.
5. Safety features prevent lights from turning on when lid is not connected to the container unit.
6. For wireless charging, simply place any wireless charging compatible phone, face up, on the center of the top of the device. If your phone is capable of wireless charging, it will display the charging symbol. Can be used during sanitizing or when sanitizing is not in process. NOTE: Wireless charging is slower than wired charging.
7. For aromatherapy, place 2 or 3 drops of oil in the receptacle on the underside of the lid. It will activate automatically when a cleaning cycle is started. Do not add more oil than recommended.

Frequently Asked Questions:

1. Do I need to flip my phone over to sanitize on both sides?
No. There are small risers on the bottom that allow light to pass under flat surfaces. If you're cleaning something soft & foldable, it's advisable to reposition & clean again after one cleaning
2. Is the light harmful to phones or other items I want to clean?
No. The light will not harm your phone or other items that fit inside. Do not use on living beings or camera film.
3. Do I need to remove my phone case?
If you do not usually remove your case, it's not necessary. However, if you want to clean both your phone and your case fully, removing the case and cleaning the two separately will produce the best results.
4. Does wireless charging work with every phone?
No. Wireless charging doesn't work for all phones. iPhones starting with the iPhone 8 Plus and later support wireless charging. Many newer Android phones (and most new Samsung phones) support wireless charging. Wireless charging is a bit slower than standard charging.
5. Can I sanitize anything that fits inside?
Yes. You can sanitize anything that fits inside. For any medical devices always refer to CDC and FDA guidelines.
