

mainly music/mainly play/mainly babies COVID Principles

Three outcomes of these sessions are

- Delight
- Accept
- Grow

Delight

Delight is about the connection we make, primarily as parents with our children, but also in the creation of the village. It takes a village to raise a child.

At mainly music, we are very aware of the delight God has in offering relationship with us and our response to that gift of hope, love, life, and connection.

Accept

Within the COVID expectations and mandatory requirements, accepting the decisions of each other can be a little more difficult. To enjoy a session, we will need to accept each other, and the decisions each of us make. This includes how we parent, the food we eat, the way we discipline, our crazy dance moves, and the opinions we have.

As an organisation, mainly music has chosen to follow Government regulations.

Grow

Grow features how we embrace change, how we learn from each other and challenge ourselves to grow in all areas of life, and how we engage with others as they grow.

The mainly music organisation remains committed to provide sessions that welcome all. This is undertaken face-to-face with our partners and on-line options for those unable to engage in person. The on-line groups provide options for those who cannot attend sessions for a myriad of reasons.
