## Numicon 2 digit number bingo

Have ready (per pair):

- Numicon shapes I to 10
- Additional Numicon 10 shapes to make 2 digit numbers
- 2 digit number chart enlarged to A3
- Numicon shapes number cards enlarged to A3 and cut out as individual cards

How to play: Students choose 3 numbers from the number chart and make the numbers with their Numicon shapes. Show the Numicon shapes number cards one at a time. Students call out the number on each card and see if it matches one of the numbers they have made with Numicon shapes. Move matching numbers to the left. Continue to show each card until students have matched all 3 of their 2 digit numbers and call out 'Bingo!'.
