## Four in a row

Have ready (per pair):

- I set of Numicon dice 0-5 and 5-I0
- Four in a row game board

How to play: Each player has a Four in a row game-board.
Take turns to roll the two Numicon dice. Either add the two dice together and place I peg or counter on the squares that match the sum, or use the face value of the two dice and place a peg on both of the matching Numicon shapes on the game-board.

For example, if you roll a 4 and an 8, place pegs on both the 4 and the 8 squares, and if you've already placed a peg on the 4 square, you can still place a peg on the 8 square if it's free. Alternatively, add them together and place a peg on the 12 square.

The first person with 4 in a row horizontally, vertically or diagonally is the winner.

Four in a row

|  |  |  |  |
| :---: | :---: | :---: | :---: |
| D |  |  | $80$ |
| $0$ |  | $\square$ | 00 |
|  |  |  |  |
|  | $80$ | 88 |  |
