## How to Measure

Please ask someone to help you take your measurements.

Chest: Place the tape under the arms and around the fullest part of the chest, allow room for two fingers underneath.

Waist: Measure around the natural waistline. Breathe out naturally and take your measurement.

Collar Size: This refers to the collar size you would typically wear.

Front Length: The front length is measured from the base of the collar to the hem of the garment. Measure from the base of your neck to determine the appropriate length for you.

Please ensure that the size of the waistcoat is suitable for you. If you have a larger stomach you may need to choose a bigger chest size.

If you have any questions at all please do not hesitate to get in contact so a colleague can assist.
