

# Cassocks - Women's Size Guide

We are proud to offer two primary cassock ranges which can be ordered through our website: the Essential Cassock and Custom Cassocks. Our Essential Cassocks are fully standardised: each is single-breasted, made in a lightweight pure wool, and include brush braid, fabric-covered buttons, and cuffs. They cannot be altered or customised.

Alternatively, our Custom Cassocks are available in a wide range of sizes - both single and double-breasted - with various customisable features such as fabrics, additional piping, and a choice of buttons.

Please use this size chart to determine which type of cassock is best for you: either our Essential or Custom range.

Watts' Essential Cassocks are only available in a range of set sizes, which are highlighted in the table opposite.

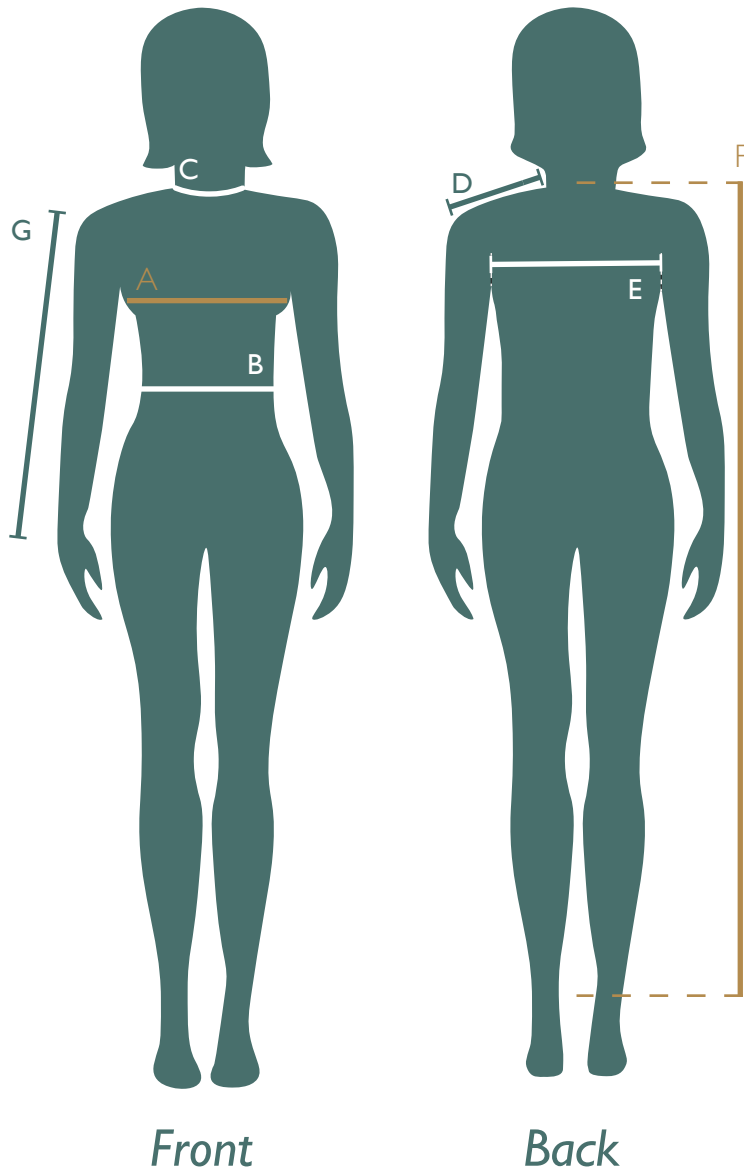

If you have any questions, please get in contact so a colleague can assist.

		Back Length					
		48"	50"	52"	54"	56"	58"
Chest Size	32"	32 / 48	32 / 50	32 / 52	32 / 54	32 / 56	32 / 58
	34"	34 / 48	34 / 50	34 / 52	34 / 54	34 / 56	34 / 58
	36"	36 / 48	36 / 50	36 / 52	36 / 54	36 / 56	36 / 58
	38"	38 / 48	38 / 50	38 / 52	38 / 54	38 / 56	38 / 58
	40"	40 / 48	40 / 50	40 / 52	40 / 54	40 / 56	40 / 58
	42"	42 / 48	42 / 50	42 / 52	42 / 54	42 / 56	42 / 58
	44"	44 / 48	44 / 50	44 / 52	44 / 54	44 / 56	44 / 58
	46"	46 / 48	46 / 50	46 / 52	46 / 54	46 / 56	46 / 58
	48"	48 / 48	48 / 50	48 / 52	48 / 54	48 / 56	48 / 58
	50"	50 / 48	50 / 50	50 / 52	50 / 54	50 / 56	50 / 58

# How to Measure

---

We only take two measurements for our Essential Cassocks: a **chest size** and a **back length**. Collar, waist, across back, and shoulder are determined by your chest size. Sleeve length is determined by your back length.

**How to measure:** Please ask someone to help you take your measurements.

**A. Chest:** Place the tape under the arms and around the fullest part of the chest, allow room for two fingers underneath.

**B. Waist:** Measure around the natural waistline, breathe out naturally and take your measurement.

**C. Collar:** The collar size on the cassock is determined by the collar size you would usually wear.

**D. Shoulder:** Place the tape at the base of your collar and measure across to the end of your shoulder.

**E. Across Back:** Place the tape horizontally across the shoulder blades, measuring underarm to underarm.

**F. Back Length:** Ensure you are wearing the shoes you would usually wear with a cassock. Place the tape at the nape of your neck and extend down to where you would like the hem of the cassock to sit.

**G. Sleeve:** Measure from the end of the shoulder, along the length of your arm to the point just past the wrist-bone.
