ADVANCED DIAGNOSTICS™

Emulator Cable for Toyota®/Subaru® ADC2015 (D755650AD)

January 2023

Advanced Diagnostics is pleased to announce the new ADC2015 Emulator Cable that enables programming of replacement Toyota proximity and Subaru "H" bladed keys even in All Keys Lost situations.

What does the ADC2015 Emulator cable do?

ADC2015 Emulator cable works together with the Smart Pro and Advanced Diagnostics ADS2328 Toyota and ADS2286 Subaru software to create a master key in All Keys Lost situations for a wide range of Toyota and Subaru models.

Key data is read from the vehicle using the Smart Pro software and then written to the emulator which is connected directly to the Smart Pro via a USB cable. The emulator then becomes a master key for the vehicle allowing additional keys to be programmed, all without the need of an existing, working key.

What else will I need?

Smart Pro   ADS2286   ADS2328

Software Applications

TOYOTA® SUBARU® - ADC2015
