

Key Programming Software Chrysler/Fiat® 2022 ADS2324

February 2021

Advanced Diagnostics is pleased to announce the release of new key programming software for select Jeep and Fiat models.

What does the software do?

ADS2324 programs proximity keys for popular models like the Jeep Compass, Jeep Renegade, and Fiat 500X. Add key and Erase key functionalities are both available with the presence of an existing or new key. The software bypasses the security PIN code and programs the remote and transponder at the same time. No working key is required. The ADC2012 cable is required to complete the programming procedure.

Server Connection Required

ADS2324 software requires an internet connection to access the programming calculation using the proprietary Advanced Diagnostics Server. (Smart Pro must be connected to the internet via WiFi)

What else will I need?

Smart Pro

ADC2012

OFFER DETAILS	USING TOKENS	USING UTP	USING BOUGHT SOFTWARE
Cable	ADC2000B	ADC2000B	ADC2000B

Software Applications

CHRYSLER/FIAT® - ADS2324

APPLICATION CHART

						
Fiat 500X (Proximity Key) 2020 - 2021	✓	✓	✓	✓	ADC2000B ADC2012	✗
Jeep Compass (Proximity Key) 2021	✓	✓	✓	✓	ADC2000B ADC2012	✗
Jeep Renegade (Proximity Key) 2020 - 2021	✓	✓	✓	✓	ADC2000B ADC2012	✗

*Some early production 2020 Fiat 500x and 2020 Jeep Renegade models will use ADS2272 software. This is a split year model.

Models successfully tested have been found to use OEM software numbers 41200563AB and 41200563AC for Compass and 10277899BH and 10277899BI for Renegade/500X. These OEM Software numbers are shown on the Smart Pro Identification screen when first communicating with the vehicle. OEM software numbers not shown here will not work at this time.

*Based on active testing in the field, some variation may occur, we cannot guarantee success on ALL listed vehicles. We cannot guarantee that the OEM does not update software and/or change their security which is beyond our control. Success has been at or near 100% on the vehicles shown here.
