

New Software Release GM® 2020 - ADS2290 First to Market World Wide Solution

February 2020

Advanced Diagnostics is pleased to announce the release of the GM® 2020 ADS2290 key programming software.

What does the software do?

This software will program both bladed and proximity keys for several Buick®, Cadillac®, Chevrolet®, and GMC® models. No working key, additional cable or software are required.

There is the option to add one additional key / remote to an existing key. The transponder and the remote are programmed at the same time, whilst the pincode reading is processed by the software as part of the routine procedure. This software is standalone, no internet connection or NASTF needed.

Note: This software is available for Smart Pro only.

What else will I need?

Smart Pro

DETAILS OFFER
