FREE SOFTWARE UPDATE
FORD® 2019 - ADS2269 - UPDATED March 2020

- **No NASTF required**
- **First in the world to program keys even on vehicles with active alarm**
- **No changes to vehicle firmware making the software safe to use. (Other devices modify the ORIGINAL firmware compromising safety of vehicle)**
- **Programming new keys possible even in the situation of lost keys.**

- **No longer the need to cover the Ultrasonic sensors, for New Models Highlighted in red.**
- **Very fast key programming, just 2-3 minutes.**
- ***No additional cables or additional software required, Smart Pro MUST connected to Wi-Fi.**
- ***2 tokens required for token users (1 token for key programming, 1 token for PIN calculation through AD Server)for New Models Highlighted in red.**

* Only applies to 2020 Ford Escape, Ecosport, and Transit Connect.

Advanced Diagnostics is pleased to announce the release of Ford 2019 ADS2269 software for the Smart Pro only. The new software is for programming proximity and bladed keys on various Ford & Lincoln vehicles worldwide.

What does the software do?

ADS2269 software is designed specifically to program proximity keys for 2018-2020 vehicles. Also, earlier model year vehicles that have been into a dealership and received a security software update. ADS2269 will bypass the security pincode during the procedure and will program the remote and the transponder at the same time. No working key is required and there is an add key option available.

There is also a special procedure designed to allow programming even if the factory alarm system is activated.

What else will I need?

Smart Pro™
