

TECHNICAL SPECIFICATIONS QT1	300
Height of spindle	300 mm
Support table	630 x 860 mm
Output	0,75 W a 6 poli
Fixed speed	900 rpm
Height of QN brush	270 mm
Height of Quick Flex brush	300 mm

QuickWood

QT1

Tilttable Sander table with a brush.

APPLICATIONS

- Sanding the raw and sealer sanding of straight, curved and shaped profiles
- Sanding of furniture in general both raw and painted

CHARACTERISTICS

- Workpiece Support Table
- Equipped with a brush choice of QN with height 270 mm or quick flex with height 300 mm
- On request you can have an inverter to adjust the speed, a height-adjustable table, work guides and dust extraction hood

ADVANTAGES

- Always ready to use for small series out of standard or special shapes
- Ideal for sanding the raw and lacquered thanks to the possibility of using two different grits on the same brush (clockwise or anticlockwise rotation thanks to the use of the inverter)
