

TECHNICAL SPECIFICATIONS QT22	300
Maximum working width	200 mm
Maximum working height	300 mm
Speed of brushes	100-1100 rpm
Throughfeed speed	1-10 m/min
Dimensions	900 x 1200 x 1500 mm
Weight	320 Kg

QT2

Automatic machine with two vertical or horizontal brushes for sanding, finishing of curved parts.

APPLICATIONS

- Brushing of the raw and sealer sanding of curved and shaped pieces such as backs and legs of chairs and stools

CHARACTERISTICS

- Speed of rotation of brushes from 200 to 1200 rpm, adjustable via electronic inverter
- Drive-in and out-of-feed rollers
- pressure rollers with special adjustable springs to adapt to curved shapes
- Adjustable brush supports both in height and width to ensure the recovery of the brush wear and to adapt to the shape of the workpieces

ADVANTAGES

- Industrialization of a fully manual working system
- Reduced machine size
