QT4

Automatic machine with four brushes arranged at 360 ° for sanding, finishing of shaped parts.

APPLICATIONS

- Brushing of the rough and sealer sanding of curved and shaped pieces such as chair and table legs

CHARACTERISTICS

- Speed of rotation of brushes from 200 to 1200 rpm, continuously adjustable by electronic inverter
- Drive-in and out-of-feed rollers.
- Pressure rollers with special adjustable springs to adapt to curved shapes
- Adjustable brush supports both in height and width to ensure the recovery of the brush wear and to adapt to the shape of the workpieces

ADVANTAGES

- Brushing at 360 ° of the workpiece thanks to the use of 4 brushes placed at 90 ° one with respect to the other
- Reduced machine size
- Reduced sanding time
