and timer

Your home
in one app

Make your life more colorful and smarter

Nexxt Solutions introduces its new **Smart Home Automation Series**. Designed to suit your mobile lifestyle while building a safe environment inside and out your home, the brand seamlessly unifies into one user-friendly application a comprehensive line of fully integrated devices. From smart plugs, power strips, bulbs, and cameras to security kits, you can now take control, schedule, and run your own home devices, on your own schedule even when you are not there.

Our Smart Wi-Fi galaxy star projector is voice activated, making it compatible with Amazon Alexa and Google Assistant™ for hands free management of all linked devices. Remotely adjust the intensity of the lights or control the rotating motion from anywhere via the Nexxt Home app. Suitable for bringing an out of this world experience to kids' bedrooms, game rooms, and home theaters. Dine under the stars by creating an interstellar atmosphere. Turn on the galaxy projector for a relaxing environment, or spark your imagination alongside your family exploring the secrets of the night sky. No need to worry about getting out of bed to turn it off thanks to the included timer and schedule feature. Color combinations can be fully customized to bring an unsurpassed interstellar experience right into your home. Set the timer and create schedules for different galaxy and star scenes from your smartphone.

Highlights

- Easy pairing
- No hub required
- Download the Nexxt Home App to your smartphone for convenient control
- Configure different colors and background scenes from your smartphone
