Your home  
in **one app**

## Create magic with the perfect lighting anywhere you want, from anywhere you are

Nexxt Solutions introduces its new **Smart Home Automation Series**. Designed to suit your mobile lifestyle while building a safe environment inside and out of your home, the brand seamlessly unifies into one user-friendly application a comprehensive line of fully integrated devices. From smart plugs, power strips, bulbs, and cameras to security kits, you can now take control and run your home devices, on your own schedule even when you are not home.

With our **Smart Wi-Fi LED light strip** you can easily bring life to your room or set the mood directly from your smart device. Remotely turn your strip lights on and off from anywhere via the Nexxt Home app. Select from a spectrum of multiple colors to create the right ambiance for entertainment at home or highlight your business. Setup is a snap: simply plug the multicolor LED light strip into any standard wall outlet, and connect it to your existing wireless network, *no hub required*. Its voice activation feature makes it compatible with Google Assistant and Amazon Alexa for hands-free management of all linked devices. You can have peace of mind by checking the real-time status of any device at any time, save energy by running your house on your schedule, while providing a higher sense of security by making it appear that you are home even though you are half way around the world.

## Highlights

- Easy pairing
- No hub required
- This kit contains a 16.4ft/5m color LED strip, Wi-Fi controller and power adapter
- Nexxt Home app
- Voice activated (Amazon and Google Assistant)
- iOS and Android™ compatible app
- Schedule on and off times from anywhere, anytime
- Self-adhesive and easy to attach to any solid surface
- Fun and versatile accent lighting: its flexible design allows it to be shaped, bent, cut, and extended
- Selectable scenes to suit your mood
- Watch your music come to life with dynamic lighting effects
- The color selection is based on the polychromatic circle displayed in the app
- The brightness of every light is dimmable
- Share access
