Your home
in **one app**

The easiest way to make
your patio decorations smart

Nexxt Solutions introduces its new **Smart Home Automation Series.** Designed to suit your mobile lifestyle while building a safe environment inside and out of your home, the brand seamlessly unifies into one user-friendly application a comprehensive line of fully integrated devices. From smart plugs, cameras, bulbs and pet feeders to security kits, you can now take control and run your home devices, on your own schedule even when you are not there.

Our **Smart Wi-Fi dual plug** is the easiest way to make your current electrical devices smart. Simply plug it into any AC outlet and connect it to your existing wireless network, *no hub required*. With its ABS fireproof construction along with its resistance to water and dust, this rugged smart plug can withstand rain, snow and extreme weather conditions. Remotely turn the landscape lighting, outdoor decorations and patio appliances on and off from anywhere via the Nexxt Solutions Home app. Its voice activation feature makes it compatible with Google Assistant and Amazon Alexa for hands-free management of all linked devices. You can have peace of mind by checking the real-time status of any appliance at any time, save energy by running your house on your schedule, while providing a higher sense of security by making it appear that you are home even though you are half way around the world.

Highlights

• Features two individually controlled outlets via the Nexxt Solutions Home App
• Includes weather-resistant covers to seal the electrical outlets when not in use
• No hub required
• Easy pairing
• **Voice activated:** utter simple commands using your favorite voice assistant
• iOS and Android™ compatible app
• Create schedules separately for each connected device to the plug
• Multiple programmable timers
• Share access
