Your home  
in **one app**

## Get inspired, create magic with the perfect lighting

Focusing on the connected home of the future, Nexxt Solutions is continually expanding its **Smart Home Automation** Series. Designed to suit your mobile lifestyle while building a safe environment inside and out your home, the brand seamlessly unifies into one user-friendly application a comprehensive line of fully integrated devices. From smart plugs, power strips, bulbs, cameras and appliances to security kits, you can now take control, schedule and run your own home devices, on your own schedule even when you are not there.

The **Smart Wi-Fi String lights** provide you with endless possibilities to transform any in or outdoor space, or to set a variety of colorful scenes directly from your smart device. Remotely turn your string lights on and off from anywhere via the Nexxt Solutions Home app. The spectrum of multiple colors lets you create the right ambiance for a celebration in your patio or to highlight the charm of the season, from Easter, Halloween to Christmas, the possibilities are endless. Rugged and durable, featuring a shatterproof clear globe, these lights are designed to withstand the elements and extreme weather conditions. **Setup is a snap:** simply plug the LED light string lights into any standard wall outlet, and connect it to your existing wireless network, *no hub required*. Better yet, its voice activation feature makes it compatible with Google Assistant and Amazon Alexa for hands-free management of all linked devices. By integrating this innovative LED light string into your smart home, you can not only make your decorative lighting glow all year round, but also minimize energy consumption and costs.

## Highlights

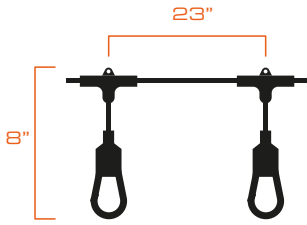

- Color changing RGB+W lights: over 16 million color combinations to choose from
- Schedule on and off times from anywhere, anytime
- Set up timers and automation routines for illumination cycles
- Easy pairing
- Nexxt Home free app
