2-year warranty

Your home in **one app**

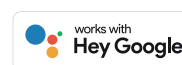

## Watch and speak to visitors in real time no matter where you are

Focusing on the connected home of the future, Nexxt Solutions is continually expanding its **Smart Home Automation Series**. Designed to suit your mobile lifestyle while building a safe environment inside and out your home, the brand seamlessly unifies into one user-friendly application a comprehensive line of fully integrated devices. From smart plugs, power strips, bulbs, cameras and appliances to security kits, you can now take control, schedule and run your own home devices, on your own schedule even when you are not there.

Our next generation **smart video doorbell** is the ultimate security solution for any home, apartment or business. Now you can see and talk to whoever is there without having to open the door. The combination of a high-definition camera, motion detection sensors with two-way communication offers a versatile Wi-Fi monitoring system that works with or without an existing doorbell installation. Video can be stored directly to a microSD™ memory card, providing users with both viewing and recording capabilities. Setup is a snap: turn the doorbell on and connect it to your wireless network through the app, no hub required. The slim and impressive doorbell features a tamper-resistant enclosure with an IP65 rating, which protects it against vandalism, the elements and extreme weather.

## Highlights

- Receive instant notifications every time someone is at your door
- Motion-activated recording with push notification alerts: never miss an important moment ever again
- HD surveillance: 1080p resolution ensures sharp live stream even under extreme lighting conditions
- Advanced night vision
- Versatile: convenient wire-free, battery -operated installation or wired to the grid for continuous power\*
- Pluggable indoor chime with 52 selectable tones
- Wide 110° field of view
- Advanced human body detection minimizes false alarms
- Weatherproof IP rating of 65, for optimal protection and reliable performance all year round
- Built-in 100dB alarm, works as an effective intruder deterrent
- No hub required
- Supports local storage through a microSD™ card of up to 128GB\*\*
- Seamless two-way audio between the phone and the doorbell camera
- Free app provided, supports remote viewing on iOS or Android™

Smart HOME. Smart living

# Smart Wi-Fi video doorbell with chime

## Technical specifications

<b>MPN</b>	NHC-D100																								
<b>General</b>																									
Resolution	1080p HD (1920x1080p)																								
Image sensor	1/2.9-inch color CMOS																								
Lens type	2.8mm fixed																								
Viewing angle	110 degrees																								
Video compression	H.264																								
Audio compression	PCM																								
Two-way audio	Built-in microphone and speaker																								
Reset button	Included																								
Frame rate	15fps																								
IR mode	Dual filter switching																								
Still image capture	Included																								
Motion detection range	Up to 20ft																								
Night vision	Up to 10ft																								
MicroSD™slot	Up to 128GB**																								
Wireless frequency	IEEE 802.11N, 2.4GHz (not compatible with 5GHz Wi-Fi networks)																								
Setup requirements	No hub required																								
Video features	Motion detection, human body filtering																								
Weather resistance	IP65																								
Angled mount	15 degrees																								
<b>Input power</b>																									
Doorbell	Battery: Built-in 5.200mAh lithium rechargeable /DC 5V 2A* Hardwired: 12-24VAC (used to upgrading your existing low-voltage conventional doorbell)																								
Chime	NEMA style plug: 85-256VAC																								
<b>Physical appearance</b>																									
Dimensions	1.4x5.4x1.1in																								
Weight	0.4lb																								
Cord length	3.3ft micro-USB cable																								
Housing	Plastic																								
Color	Black and white																								
<b>Environment</b>																									
Operating temperature	14°F - 131°F																								
Storage temperature	-4°F - 140°F																								
Relative humidity	20% - 85% non-condensing																								
<b>Additional information</b>																									
System requirements	- Mobile device running on iOS 8 or above, Android 4.1 or above - Nexxt Home app - Existing Wi-Fi network																								
Special features	Notifications, anti-tampering alerts, buzzer
