Description

The T-01 stainless steel table is a stunning sculptural piece that is both practical and functional. Created by designer Kwaku Boateng who has spent ample time crafting interior objects, this piece is a result of his exploration of new materials and processes. It stands proudly upright with a trophy-like appearance and bows gracefully, lending it a regal quality. Made entirely of 5mm stainless steel, this table is comprised of three parts that, when assembled, create a practical, versatile and sturdy piece of furniture. It can be used as a side table or as a stool, making it perfect for London living where space is at a premium. With its sleek lines and metallic finish, the T-01 Stainless Steel Table is a true work of art that is both functional and beautiful. It is the perfect addition to any contemporary home.
