Description

The T-02 stainless steel coffee table. This stunning piece of furniture is a result of the designer's extensive exploration of new materials and processes. Crafted from a single piece of 3mm stainless steel, the T-02 coffee table is an elegant piece of design. It features four defining bends that give it a distinctive shape, with a plate that lines the floor. This plate has been designed to allow users to store their favorite books, showcasing the designer's love for reading. The simplicity and elegance of the T-02 coffee table are evident in every detail. The brushed finish of the stainless steel adds a touch of sophistication, making it the perfect centrepiece for any modern living space.
