

Luxury Hotel & Restaurant Products

About Us...

We have created elite and gorgeous differences with small touches. We offer quality products for our customers in different geographies and different cultures. This brought us happiness and success and we raised the bar and said hello to the world.

Since 1991 we have grown with our quality and we improved ourselves. We have both guided and tried to help you by designing new products with our experienced team. We have taken our place in your life with the naturality and warmth of wood and elegance of glass.

To prove that we never limit ourselves in the production, we have continuously worked and produced. We have designed modular buffet systems, coffee service trolleys and interior cleaning trolleys for restaurants for you.

We started with the headboards of the beds in your hotel room, then we even covered the walls with leather and showed again our difference in the sector.

We have entered every space of the hotels, bringing little touches of DERIA everywhere from bedrooms to bathrooms and hotel lobbies to restaurant tables.

We have proved that we are your solution partner in this sector, too by working with world hotels such as Hilton, Sheraton and Crown Plaza. For 20 years, we have always kept going, growing with you, and gained experience and written the success story of **DERIA DERI** together!

Buffet & Restaurant / Service Tray

With their leather bottom, our service trays are a lot chicer now. No doubt, the coziness of the wood is a must for every hotel. The wooden service trays produced by solid beech or oak with rigorous hand-workmanship enable a presentation that suits your brand value. Also our canepo trays are with their acrylic insert an eye catcher.
