SHELL

AXION Shell is a new model recently added to the AXION family. It comes in a triangular base shape that facilitates easy use for promotional events, or as a perfect modular "corner" part of the Square or Lite composition. You can add walls to all sides or add tunnels to connect to other tents of the same or different size. The zip-off cover, walls, visors and the entire inflatable structure can be printed in full color dye sublimation upon demand.
