### HEXA

AXION Hexa is the newest member of the AXION family. This inflatable tent comes in a hexagonal base shape that provides a large area of 56 sqm. It is the perfect solution for events where a "rectangular" base is needed and the "neck" of the connection tunnel causes difficulty. You can add walls to all sides or add tunnels to connect to other tents of the same or different size. All six openings can be equipped with a visor. The zip-off cover, walls, visors and the entire inflatable structure can be printed in full color dye sublimation upon demand.
