# THERAPACK MICROBEADS

## THERAPEUTIC MOIST HEAT PACK

Safer, Better

Therapack Microbeads provide a time-released moist heat therapy which is a more effective conductor of heat than wheat packs. Our packs maintain heat for up to 30 minutes and are odour free, non-toxic, latex free and hypo-allergenic. Compared with a common wheat filled pack, Microbeads offer superior therapeutic benefits to the patient, are safer and more pleasant to use.

### PROFESSIONAL MODEL

Features a built-in thermometer to assist in the prevention of overheating and risk of burns to patients

PROFESSIONAL LARGE - 30 X 40CM

PROFESSIONAL CERVICAL - 12.5 X 66CM

### CONSUMER MODEL

Provide your patients the benefits of moist heat therapy—a deeper and more effective penetration of heat. Packaged for retail sale

CONSUMER STANDARD - 22.5 X 30CM

CONSUMER CERVICAL - 20 X 55CM

MICROPROLGR

**\$49.00**

### MICROBEAD BENEFITS

- Control pain
- Speed healing
- Relax muscles
- Increase blood flow
- Increase range of motion

Compare Microbeads with a common wheat filled pack:

	WHEAT PACK	MICROBEADS
X	Unpleasant smell can develop	✓ Odourless
X	Overheating & old contents can risk combustion	✓ Fire resistant
X	Dehydrates the skin	✓ Maintains skin moisture
X	Dry heat	✓ More penetrating 'moist' heat
X	Wheat moves & migrates in pack	✓ Even heat coverage
X	Risk of mould or rotting of organic filling	✓ No mould
X	Uncertainty with heat levels	✓ Reduce risk of burns*
